### ESOPHAGEAL BALLOON CATHETER SET - for Intra-thoracic pressure monitoring

Adult size includes banded 5 Fr., latex-free balloon catheter, 86 cm. LG, with a soft balloon measuring 10 cm LG, 3 - 4 cc. air capacity, coated stylet with blunt rounded tip, 4 ft. pressure monitoring extension with one three-way stopcock, connects to pressure transducer. Sterile.

Part #	Quantity	Price
M365	5 sets/box	\$210.00

### EARPLUGS

Not only for your patients, most of our requests are for the techs themselves. Pairs are individually packaged, preshaped, tapered for easy insertion and flared for easy extraction, non-irritating foam, and low cost.

Part #	Quantity	Price
M363	200 pairs	\$42.00
M364	20 pairs	\$6.00

### DISPOSABLE TEMPERATURE STRIPS

Fast, accurate and very cost effective. Stick to the patient's skin and within seconds the skin temperature will show as a yellow line aligning the temperature scale.

Part #	Quantity	Price
T009	50/pk.	\$73.00

### WIRE RETENTION STRAPS - SLEEP OR AMBULATORY STUDIES

We continue to sell our very popular SOFT 1" wide collar material. The collar material is cut to size and wrapped around the patient's neck. The ends are then secured by our 9-loop Velcro backed strap. **(A)** Or, now we have a strap consisting of layers of velcro.

**(B)** Secure the collar with our retention strap. Lift up the top flap and place all the leads coming from the patient's head on the strap face. Close the top flap and the velcro strap will hold the wires in place during testing.

Part #	Description	Quantity	Price
M036	SOFT Collar - 75' roll	1 roll	\$60.00
M034	Loop Strap w/ 9 loops	5 per package	\$16.00

### WIRE COVER

Another good idea that we have seen in use. An inexpensive covering for bundles of electrode wires comes as a roll of cotton in the shape of a tube. The cover keeps the electrode wires clean, reduces any artifact noise resulting from wire movement, and reduces tangling of wires. Great for all EEG, Sleep, ambulatory electrode wires. When it gets dirty throw away and replace with a cover. Cheap and very effective. 50 Yd rolls.

Part #	Price
M284	\$24.00

### CABLE & ELECTRODE RACK

Can be painted (by you) to match or color coordinate to your office.  
(3.5" x 11")

Part #	Size	Quantity	Price
M260	3/16" wide slots, for electrodes	15 hooks	\$15.00
M263	7/16" wide slots, for cables	10 hooks	\$14.00

### HEAD NET

One of those nifty products that presents a better solution to protecting electrodes for sleep, long term, or ambulatory recordings. The material is supplied as a roll of tube material. One cuts to length and slips over the patient's head after the electrodes are applied. The soft material when stretched reveals a diamond shape net. This material offers several advantages over gauze or self-adherent wraps. It is cooler, therefore, more comfortable for the patient; it allows easy access to electrodes for touch-ups or checking position. Disposable, low cost, efficient. 25 yd./roll

Part #	Size	Price
M281	Adult, large	\$28.00
M282	Small adult, medium	\$22.00
M283	Child, small	\$19.00

### ELECTRODE CLEANING BRUSHES

Basic little tool that every lab needs. Although it may resemble a tooth brush it really is the best electrode cleaning brush on the market. Compare our prices to the fancy brand name commercial copies. 10 per package.

Part #	Price
M901	\$9.00

### NEEDLE SAFE II HOLDER

The ultimate protection against needle stick injuries and a safe place to hold your EMG needle electrodes during the exam. Safely holds all needle electrode sheaths, mounts easily for your convenience. Detachable base provided for easy cleaning.

Part #	Price
M091	\$21.00

### HEAT PADS

This system is designed to safely warm the patient's limb by using reusable gel packs in a pouch, which is placed on the patient's limb and may be held in place with the optional wrap. The gel packs may be heated using hot water or a hydrocollator. The high quality gel holds temperatures for up to 60 minutes.

Part #	Description	Price
M403	Gel Pack - 6" x 10"	\$5.00
M404	Wrap - 6" x 10"	\$9.00

### TONGUE DEPRESSORS

Multiple use in labs. Place a small amount of paste from a tub or tube then use EEG cup electrode to scoop up the amount needed per electrode. Much cleaner than reaching into a jar with the electrode. Avoids cross contamination. Disposable. 500/box

Part #	Price
M373	\$10.00

### SLEEPSENSE SENSOR TESTER CR203
